

Dear Sir/Madam,

I am writing to express my gratitude for the Gray-Milne Travel Bursary that was granted to me last year, and I would like to let you know how this fund supported my research and career during this period.

The main contribution of this fund was to support my trip to attend the ESA Living Planet Symposium 2022, which was held in Bonn, Germany in May 2022. This conference was especially important to me, because before this one, I didn't take part in any major academic conferences during my PhD career due to the pandemic. I felt really excited and encouraged to meet new people and had the chance to present my work to a broader audience. This conference also showed me how academia and industry cooperate and function, which will definitely affect my choice after obtaining the PhD degree.

I would like to thank you again for the support from the British Geophysical Association. I attach a photo here which showed myself and the poster when I attended the meeting, which can be used on your website and social media.

Yours sincerely,

Fei.
